1. Chapter 1

(This takes place a few months after the movie) In the place where the Queen of dragons had once lived all was destroyed. However, in the rubble there was a egg that survived it. The egg of the Dragon queen. The egg moved and moved. It finally came was a female Night Fury. She had scales as black as night and a birth mark that looked like the Queen of dragons. She waddled out of the rubble. (Here is the dragon's POV)

Where on my life am I?,she thought. Somehow her wings flapped by itself. She was able to control it and sipped at a puddle of milk.(Narrator POV)

I can sense something, thought Toothless but ignored it. He and Hiccup flown all around Berk to make sure all dragons were fine. He saw something fly towards at him and hit him square in the face and the thing fell a 100 feet and left a crater in the ground. Toothless and Hiccup flew down to see what it was. It was a Night Fury. (Female Night Fury's POV)

I was flying and I hit someone. I roared (in pain not because I was angry) and fell a 100 feet. The ground punched me. Ow, the pain, so much pain! I looked at my tail and my tail fin was ruined. I really wanted to fly and then another dragon came down and I stood as best I could but the dragon pinned me down.

"Please don't hurt me!,"I caterwauled.

"We saw your birth mark. We know who you are. You are a sibling of the Dragon Queen."

>The dragon slapped her.<p>

"I want my mommy!"

"I killed her already, weakling!" (Narrator POV)

She blacked out. She woke up and felt pain. Dragons of all kind hurt her in every way they could think of. She thought they were done but then the humans whipped her and gave her no mercy or any sign of sympathy or sorrowness. There was just abuse. On that night, she cried herself to sleep.
